SUPPORTING THE FUTURE OF FOOTBALL

These images are photoshopped representations

Step 1:
Choose your individual LED panels to suit your scoreboard space sizes.

Step 2:
Add a Solid controller box (the brains & the comms).

Step 3:
Select your subscription to suit your sports and needs.
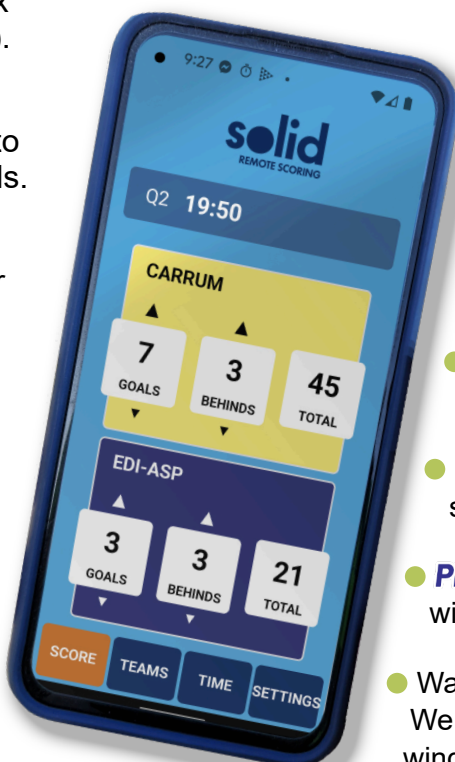

Step 4:
Get your club sparky &/or handyman to install into your existing scoreboard.

Step 5:
Call Solid - we'll logon to commission (and tweak fonts, sizes, background and colours).

Step 6:
Log into the Remote-App & start scoring 😊

SCORE   TEAMS   TIME   SETTINGS

● Great solution for clubs with tight budgets - suits some grant funding.

● Gone are the days when you could coax kids with a pie & coke to look after the scoreboard.

● Besides Scores & Timers, you can also add a scrolling message section. Request size.

● The Remote-App (left) also suits tablets, PCs & macs, or any browser based online device.

● Other sports available (if the scoreboard layout suits), basic cricket, rugby, soccer, hockey, etc.

● PlayHQ **integration included**. Your scoreboard will change automatically when scoring.

● Want to mess with the spectators? We can "roll" the digits like the winders in the good old days.
